

Cleantech Camp 2020 BASES

1. Objectives

The objectives of the programme are as follows:

- To capture new projects from universities, research centres and other sources and take them to the next level.
- To support sustainable projects with a potential impact on energy transition (energy efficiency, low carbon economy) and smarter and sustainable cities.
- To promote entrepreneurial ecosystems.
- To foster international networking between start-ups, investors and industry.

2. Requirements for applications

Participation in this selection process involves fully meeting and accepting these rules. To be a candidate for the Cleantech Camp programme the following requirements must be met:

1. Have a business idea in one of the 6 thematic areas mentioned above.
2. Have at least one person devoted full time to the project.
3. Accumulated turnover in 2019 not higher than 50,000 Euros in case the company has been established and working for more than a year.
4. The company does not need to be legally established at the time of enrolment, but it must be before December 31st 2020, in order to be eligible to receive the cash prize.

The content of the application form is as follows:

- Details of the project/company.
- Details of the contact person.
- Brief description of the business idea.
- Brief description of the market needs to be met.
- Brief description of the product/service and the development status.
- Brief description of the innovation proposal and the level of protection.
- Description of the team.

The applications must be presented in English.

To receive additional information about Cleantech Camp you can contact us using the form on the website in the **contact section**.

3. Organization of the Cleantech Camp

The period to present the corresponding applications will close on the 1st of March 2020 at 23:59 CET. The organization reserves the right to extend this period, communicating this change at the appropriate time via the planned communication channels, and on the Cleantech Camp website.

All individuals of legal age can participate, without any limitations as regards to nationality. However, the participants should be based in Spain, Portugal or willing to travel to have the training sessions in Spain and Portugal.

Pre-selected candidates will have a previous interview with the Cleantech Camp organization on the week of 15th September 2020.

The selected projects and start-ups will have access to the following services between the months of September and November:

- Continuous follow-up of the project by specialised mentors from ESADE Business School.
- Specialised training and practical workshops to develop the project with field experts.
- Incubation space in Barcelona Activa and access to the Naturgy InnovaHub in Barcelona and Madrid as well as Enagas Venture Center and Enagas FAB in Madrid.
- Access to the Municipality of Lisbon spaces.
- Visibility and international contacts.

The programme consists of a four-week training (one digital, one in Lisbon, one in Barcelona and last one in Madrid) which includes the networking meals organised during the sessions, 5 practical workshops and networking events with field professionals.

The programme undertakes to cover the participants' travel costs with the following amounts according to the distance from Barcelona, Lisbon or Madrid:

< 100Km	maximum 1.000€
101Km to 250Km	maximum 1.500€
> 250Km	maximum 2.000€

To justify the distance, participants of the programme must submit:

- A photocopy of their municipal register or similar.

The programme's organization shall make a payment of 50% of the amount, at the latest one month after the participant's entry in the programme (as long as the required information for the payment is sent within the agreed deadline).

The remaining spent budget will be paid once the participant has justified all the expenses and the total amount expended, and as long as the following requirements are met:

- To have actively taken part in the programme.
- To have attended all the training sessions on time (except due to force majeure, duly justified).
- To have attended all the networking events and meals included in the programme.
- To submit on time all the deliverables required. The deadline for its justification is on the 30th on November of 2020.

Should these requirements not be fulfilled, the organization of the programme reserves the right to not pay the remaining budget at the end of the programme of the travel expenses.

The calendar of the programme will be as follows:

4. Allocation of the prizes

Once the service delivery period is over, the organisers will select the three best projects amongst the participants in the programme, who will have a right to the following prize money and new services in kind.

All prizes will be subject to the corresponding tax withholdings and deposits into the relevant bank accounts. In any case, it will be the winner's responsibility to declare the prize according to the tax they are subject to.

The winning project shall be recognised as the company within the field of clean energy with the most growth potential.

The allocation of the CLEANTECH CAMP PRIZE is as follows:

1st Prize

- 20.000€ cash.
- 16 hours of work in concept analysis including technical and business orientation as well as looking for public funding opportunities (provided by Ateknea).

2nd Prize

- 5.000€ cash + in-kind

3rd Prize

- 5.000€ cash + in-kind

In addition (prizes in-kind)

- 15 hours of legal services in commercial law for the Spanish start-up which is in the best position among the 3 winners, valued at 3,750€ (provided by Osborne Clarke).
- 2.500€ of Intellectual property or similar study (provided by ZBM) to one of the finalists.

Pilot Prize

This year start-ups will be able to present a potential pilot with one of Cleantech Camp's partners. The final committee will select which pilots are granted to be co-financed by Cleantech Camp programme.

Industry partners:

Local partners:

Knowledge partners:

If the pilot is agreed and selected to be done with an Industrial Partner, Cleantech Camp will co-finance through InnoEnergy up to 50% of the cost with a maximum amount for the InnoEnergy part of 15.000 euros.

Each Industrial Partner can have one pilot co-financed.

In order to receive the different prizes, the projects must have active companies established as for-profit trading companies, in which the promoting partners (one of whom takes part in the programme) hold a minimum of 51% of the company, all of whom are individuals.

In order to make the prizes effective, the following documentation must be submitted:

1. Copy of the articles of association entered in the register of companies.
2. CIF (Tax Identification Code).
3. Account number and proof (receipt) that the company is the account holder.

The financial contribution for prizes must be claimed and used before the 31st of December 2020.

The financial contribution for pilots must be claimed before the 15th of December 2020.

The contributions in kind must be claimed and used before the 31st of March 2021.

Any prizes that have not been claimed and/or used by the given dates will be considered as waived.

The different prizes in kind have budgetary constraints and are subject to certain specific conditions established by each of the programme's partners, which will be communicated to the beneficiaries once the prizes have been allocated.

5. Evaluation criteria

The evaluation criteria followed by the jury is as follows:

- Focus on a market opportunity and economic viability of the project.
- Technological advantage and strategic alliances providing it with a clear head start.
- Growth potential in a global environment.
- Potential positive impact on the local environment.
- Curriculum, experience, complementarity and engagement of the promoting team.
- Presentation of the company plan and the quality of the exposition.

Industry partners:

Knowledge partners:

6. The evaluation committee and the jury

The technical committee shall be composed of field experts and representatives of the programme, namely, Barcelona Activa, CRH, Prio, Câmara Municipal de Lisboa, Enagas, InnoEnergy and Naturgy.

The jury shall be composed of renowned personalities, representatives of Ateknea, Barcelona Activa, CRH, Prio, Câmara Municipal de Lisboa, InnoEnergy, Naturgy, Osborne Clarke Legal Services, ZBM Patents and representatives of the main business, institutional and academic agents in the field of clean technologies.

The jury, by means of a vote, shall select the projects that shall benefit from the first, second and third CLEANTECH CAMP prizes.

The jury may declare the prize partially or completely null. The jury's resolution shall be unappealable.

7. Confidentiality

The applications shall be kept confidential throughout the duration of the process. Nevertheless, the general characteristics of these may be communicated if it were deemed necessary at any stage, as could the name of the winning projects, their activity and main accomplishments as well as the people making up the promoting team.

8. Guarantees

The participants in the competition guarantee the organisers of Cleantech Camp that the projects presented are original and their own work and that they have unrestricted use of the ideas, images or any other element included in their presentation. The participants shall be solely responsible for any possible infringement to any third party, leaving the organisers of Cleantech Camp exempt of any responsibility in this regard.

9. Publicity of the nominations and prizes

The nominated and winning companies may take advantage of this and advertise it in headings, advertisings and reports, specifying the year in which they were awarded and if it was as winners or nominees. They may also publish and announce the awarding of the Prize in any media of their choice.

Industry partners:

Knowledge partners:

The organization of the programme may advertise the winning and nominated companies with the due visibility, in territorial and sectorial media that it considers suitable and in all those platforms requiring examples of excellence and good practice in the field of innovation.

10. Right of first refusal for applying to CTC

InnoEnergy may analyse the business opportunity and potential investment through its acceleration programme, InnoEnergy Highway. The InnoEnergy Highway acceleration program provides resources and services worth between 100K€ and 200K€ in exchange for a participation in the share capital of the company.

Participants might be required to share all necessary information with InnoEnergy to start the selection process, analyse the opportunity and present the case in front of the Assessment Committee. By participating in the program, the participant accepts and commits to provide such information and present the business opportunity in front of such committee.

In case InnoEnergy considers the opportunity interesting, it will prepare and address a proposal.

In case the company does not enter an InnoEnergy program which grants an equity stake to InnoEnergy but enters into a fundraising process, InnoEnergy will have a preferred right of first refusal to invest in the company. InnoEnergy might provide at its sole decision business creation services which value shall grant InnoEnergy the right to have equity in the company at the same company valuation offered to the third-party investor. This preferred right of first refusal will prevail for a period of 2 years from the date when the company starts the Cleantech Camp programme.

For the Companies granted to do a pilot with Cleantech Camp's partners, which will need previous approval by InnoEnergy, the granted amount will be considered as part of InnoEnergy's investment in the Company.

11. Data protection

The Parties shall comply, to the extent that they apply to each of them, with the provisions of Organic Law 3/2018 of December 5th on Personal Data Protection and Guarantee over Digital Rights and of Regulation (EU) 2016/679 (General Data Protection Regulation), and with any other regulations in force or that replace and/or amend these in the future, with each Party being liable for any breaches that they might commit.

In accordance with the above-mentioned legislation, we hereby inform you that the data provided in this document will be incorporated and processed in an automated file owned by InnoEnergy, and that this company will treat them confidentially and exclusively for the

purpose of managing this event, the legal obligations arising from it, the management of the prizes to the winners, if any, as well as providing commercial information which may be of interest to you, as a consequence of your participation in this Programme.

By participating in the programme, you authorise and consent to the processing of your personal data under the terms indicated above and to the transfer of such data to other collaborators of the Cleantech Camp, Industry partners, Local partners, Knowledge partners.

12. Transfer of Image Rights

During the programme, there may be recordings or photographs capturing the image of the participants. Participant grants his/her express consent to INNOENERGY to use his/her image, including his/her voice and name, for commercial, advertising and analogue purposes, in accordance with Spanish Organic Law 1/1985, of May 5, regarding Civil Protection of Honour, Personal and Familiar Privacy, and Personal Image ("OL 1985"). Also, Participant assigns INNOENERGY exclusively, the exploitation of all intellectual rights that could belong, where appropriate, to Assignor, in accordance with Spanish Royal Decree Law 1/1996, of April 12, approving consolidated text regarding Intellectual Property Law.

This authorization is granted for the maximum period contemplated by Spanish law and holds no geographical limitation. Consequently, INNOENERGY shall be able to use and exploit the image, including voice and name, of Assignor, in every country of the world. This authorization includes all possible uses of the images (including name and voice) of the Assignor that may have been captured, using any technical means for the capture (currently known or that can be developed in the future), and it includes also the possibility to disseminate the referred images by any means (currently known or that can be developed in the future), for any application or use related to the programme. To this extent, the decisions about the content and design of the communications shall rest solely on INNOENERGY, which shall (in any case) respect the good name and image of the participant, as well as his/her honour right, in accordance with OL 1985.

Participant authorizes INNOENERGY to be able to dub his/her voice if INNOENERGY considers it appropriate, as long as it is done respecting the good name and image of Assignor, as well as his/her honour right, in accordance with OL 1985.

This authorization is granted within the development of the Programme. Therefore, it is understood to have been done in favour of INNOENERGY free of charge.

INNOENERGY shall be able to assign the rights and obligations arising from this agreement to any entity of its group of entities (as in the meaning given by article 42 of Spanish Commercial Code), as well as to third parties (person or entity) with whom INNOENERGY may have reached

Industry partners:

Knowledge partners:

the correspondent agreements, without the need for any further agreement of the participant for said assignment.

13. Acceptance of the rules

Participation in the CLEANTECH CAMP PRIZE implies the full acceptance of the present rules, the interpretation of which falls on the corresponding jury. Any failure to comply with the period and processes referred to in these rules shall deprive the participant of the benefit of the prizes.

As such, the participants will be required to provide the signature of the company's representative, accepting the rules of this programme.
